INTERACTIVE VIRTUAL REALITY AND AUGMENTED REALITY

# VR EXPOSURE

- with speech interaction!

Anne Heeno. CEO, Concept developer of VR and AR, phone: +45 23829012, [timestory.dk](http://timestory.dk)

## **BACKGROUND!**

20 years as award winning filmdirector and producer of film and E-learning

Teacher of visual storytelling.

Excited about new technologies that improve people's lives

---

## VR CAN AFFECT YOUR SENSES

## WHAT WE DO!

We:

bring people into VR scenarios to experience and learn

use speech interaction in VR as one of the first companies in the world

create experiences that affect, change and develop people.

# VR EXPOSURE

- with speech interaction!

In cooperation with

Silkeborg Kommune

## WHY VR EXPOSURE?

- Around 400.000 people in Denmark suffer from social anxiety.
- Social anxiety can only be healed with an element of exposure therapy.
- Exposure therapy on real locations.
  - Requires planning and time
  - The level of exposure is unpredictable
- Half of all therapists give up on exposure therapy.
